

# The No.1 Solution to Wobbly & Misaligned Tables

The Comparison? There isn't any.

## FLAT®

- Instant stabilisation (SMART SYSTEM)
- Unique capability of levelling and alignment of tabletops
- Worldwide patented technology

## FLAT® Technology, a Firm Footing for Nearly Everything

FLAT® is a multi award winning levelling and stabilising technology. Delivering functionality and **cost savings** never seen before in the hospitality industry.

FLAT® is **always on**, our table bases remain **stable** no matter where they are placed. **Automatically** they adjust to the surface below then **lock** firmly into position no matter how many times the tables are moved.

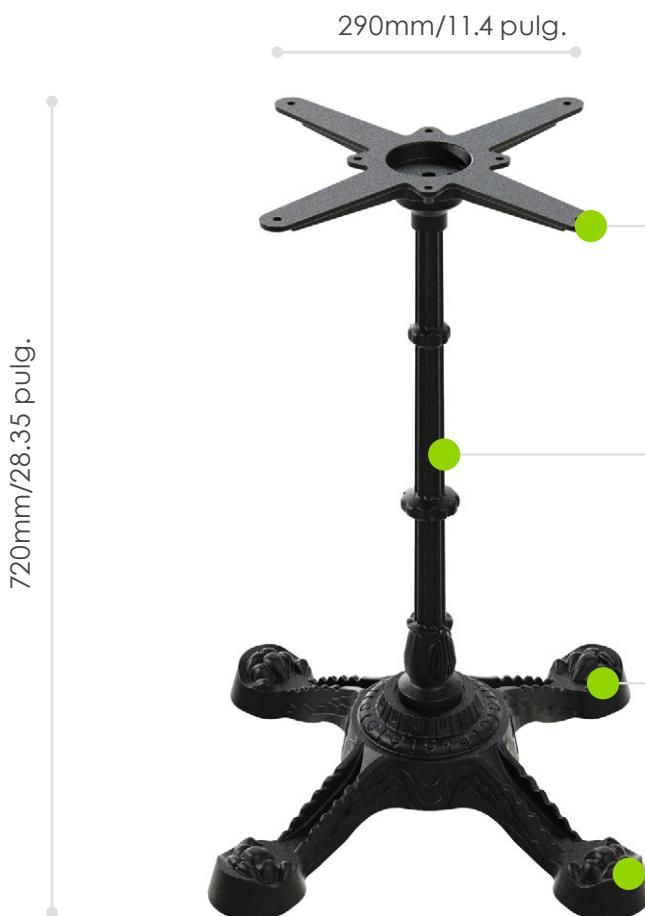

FLAT® also delivers a “**World's First**” with its unique ability to allow the user to **align** multiple tabletops together, **eliminating** the troublesome ridge **forever!**

FLAT® technology comprises two elements, the PAD (Patented Actuator Device) and the PUK (Patented Undercarriage Key) for a seamless engineered solution.

| Feature                | Benefit  |
|------------------------|--|
| INSTANT STABILISATION  | Stabilises the table in a fraction of a second, automatically.   |
| LEVELLING & ADJUSTMENT | Unique FLAT® technology means that, for the first time ever, the alignment of the tabletop can be adjusted to suit different surfaces, simply by lifting the table.  |
| FLAT® SMART SYSTEM     | It's always 'on', constantly aware of the surface below and adapting instantly to changes.   |
| DESIGN INTEGRATION     | The table base and technology form a seamless partnership. They have been designed and manufactured for simple integration into table production.  |
| ENGINEERED DURABILITY  | FLAT is made with high quality polymers and has undergone extensive R&D and exhaustive testing. The result: an exceptional quality product that you can depend on.   |
| '4 x 4'                | Outperforms traditional (usually mechanical) methods of stabilising tables. It's capable of adapting to a far greater variety of surface inconsistencies and delivers superior stability – whatever the terrain. |

## AUTO-ADJUST PX23

574mm/22.6 pulg.

### Bandeja superior

Bandeja superior de excelente calidad.

### Tubo (21mm/1 pulg. - 65mm/2.55 pulg.)

Poste macizo con decoración superficial, fundición de hierro.

### Base de hierro fundido

Alta calidad, fundición con decoración superficial.

PAD

### Tecnología FLAT® instalada sin imperfecciones

La base y la tecnología están diseñadas al unísono para proporcionar un rendimiento y una durabilidad superiores.
